Currently the government is encouraging interfaith dialouge. In UK faith groups have been treated with respect by local authorities, our Temple has not had this experience from London Borough of Hillingdon. The first Enforcement Notice was served on 8th September 2008 to remove the Portacabin on the grounds of loss of expiry of The appeals hearing in Planning. Portacabin currently is used for kitchen facilities, teaching young children Hindi, Ladies and elderly group for get together, later on if the building works start, then some building materials will be stored in the Portacabin. The Temple cannot function if the portacabin is removed because daily offering to our daities will cease therefore the Temple will have to close down.This is unfair on The Temples charitable work which makes socitey stronger and better, faith can unite communities and in turn help younger generation.
